

PLANT & CAPACITY LIST

ADVANCED FIBER LASER CUTTING TECHNOLOGY

- 1 x Bystronic 10kW 3m x 1.5m ByStar fiber laser
- 1 x Bystronic 6kW 4m x 2m BySprint fiber laser

Processing capabilities include:

- 30mm Aluminium
- 30mm Stainless steel
- 25mm Mild steel
- 15mm Brass
- 12mm Copper

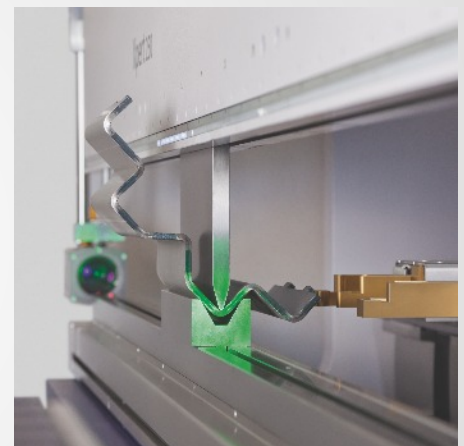

Mild steel nitro-cutting capability up to 15mm

PRECISION PRESSBRAKING ONSITE

- 1 x Bystronic Xpert 4 metre 320 tonne
 - 1 x Bystronic Xpert 3 metre 150 tonne
 - 1 x Amada HFE II 3.1 metre 130 tonne
-
- Material thickness up to 25mm
 - Extensive tooling range
 - State-of-the-art programming technology

Free issue bending service available
