

Sales Engineer / Estimator

Location: Dudley Area

Salary: £25k-£30k (negotiable) + Bonus package

Who are we?

Accurate Laser Cutting Ltd are a leading sheet metal sub-contractor based in Oldbury, West Midlands. Established in 2005, we offer a bespoke laser cutting and forming service to a wide range of industries across the UK.

Within our busy sales team, we have a strong focus on customer service & pride ourselves on our ability to turnaround quotations as quickly as possible. We deal with various engineering sectors & materials so the day-to-day role will always be diverse. Our convenient location, just on the outskirts of Dudley, West Midlands, means our premises are easily accessible via bus, car & train.

What are we looking for from a Sales Engineer / Estimator?

- Ability to understand and interpret technical drawings
- Some basic CAD experience essential
- Have a good all-round understanding of sheet metal and fabrication techniques
- Experience with machining, drilling, tapping etc
- Can demonstrate a high level of customer care with an acute attention to detail
- Strong communication skills with a friendly and confident telephone manner
- Must be able to thrive in a busy sales office

What will your duties be working as a Sales Engineer / Estimator?

- Using advanced quoting software to accurately deal with large volumes of customer quotations, cad files, sketches, telephone enquiries and samples
- Actively follow up on quotations to win orders
- Effectively communicate with customers to find solutions to their manufacturing needs

You will be working in a small but busy sales team reporting directly to the Sales Manager

- Working hours 8-5 Monday – Friday
- Reliability and punctuality essential

Why should you apply for the role of Sales Engineer / Estimator?

- Competitive salary package
- Benefits – Company bonus scheme & Paid overtime
- Onsite Parking
- You will be joining a growing company that are always willing to invest

When do we need you?

- ASAP – notice periods will be accepted
