

Trainee CNC Press Brake Operator

Location: Dudley Area

Salary: Up to 30k (Dependent upon experience) + Bonus package

Who are we?

Accurate Laser Cutting Ltd are a leading sheet metal sub-contractor based in Oldbury, West Midlands. Established in 2005, we offer a bespoke laser cutting and forming service to a wide range of industries across the UK.

Our press braking section is an exciting, varied and busy department. We deal with various engineering sectors & materials so the day to day role will always be diverse. Our convenient location, just on the outskirts of Dudley, West Midlands, means our premises are easily accessible via bus, car & train.

What are we looking for from a Trainee CNC Press Brake Operator?

- Must be proactive, willing to work as part of a team
- Strong communication skills
- Punctual, reliable and flexible
- Willing to continually learn and develop skills for the job
- Ideally an understanding of engineering drawings but not a necessity

What will your duties be working as a Trainee CNC Press Brake Operator?

- Learn the skills to set and operate press brake machinery under the guidance of the experienced press brake employees
- Adhere to health and safety
- Following quality procedure checks on parts as they are being processed

You will be working in a small but fast paced production team

- Working hours 6AM – 6PM Monday – Thursday

Why should you apply for the role of Trainee CNC Press Brake Operator?

- Competitive salary package
- Benefits – Company bonus scheme & Paid overtime
- Onsite Parking
- You will be joining a growing company that continually invest in people and technology

When do we need you?

- ASAP – notice periods will be accepted
